

# Handling of Materials

March 2015

Trial dredging by the hydraulic dredger "Rocky"

Depositing of material from split barge

## GREAT BELT LINK

In 1992 the HLD Joint Venture\*) planned and supervised the simulation of material re-handling for protective works at the Anchor Block Islands in the Eastern Channel.

Work was carried out by the hydraulic dredger "Rocky" that can be seen in the back ground of the photo above.

\*) The HLD Joint Venture consists of Hostrup-Schultz & Sørensen A/S, LICENGINEERING A/S, and Danish Hydraulic Institute.
